Education

Chennai Institute Of Technology | *B.Tech in Information Technology* 09/2024 – 09/2028 | *Chennai, IN*
CGPA: 8.55 / 10

IIT Mandi | *Minor In CSE & Advanced Technology* 01/2025 – 01/2026 | *Mandi, IN*

Professional Experience

ARMB | *Backend Developer* 04/2026 – Present | *Remote*

- Architected SkipIt, a service marketplace connecting Requesters and Providers with profile, address, and request-lifecycle modules, streamlining booking operations by **35%**.
- Engineered **20+** RESTful APIs with Java, Spring Boot, PostgreSQL, and JWT auth; designed normalized schemas and RBAC, improving API **performance by 30%** and feature **delivery by 25%**.

Promantus Inc | *Machine Learning Engineer* 04/2026 – 06/2026 | *IITMRP*

- Built GenAI applications using **LLMs**, Multi-model Agents, and RAG architectures, backed by an optimized **MLOps pipeline** for efficient model deployment and shipment.
- Automated model retraining workflows, reducing retraining time and deployment turnaround by **14%**.

Careerschool IT Solutions | *FullStack Developer* 11/2025 – 12/2025 | *Chennai, IN*

- Implemented a full-stack school website enabling the institution to process student applications fully online, **increasing seamless** application completion rates.

Projects

DevSync | *Spring Boot, React, Electron, PostgreSQL, Google Drive API, AWS S3* 05/2026 – Present

- Architected a multi-cloud sync platform integrating AWS S3 and Google Drive APIs with bi-directional sync, folder mapping, and version tracking for **10,000+** files.
- Built a Spring Boot sync engine with PostgreSQL state management, concurrent background workers, and conflict resolution, cutting manual file **operations by 80%** at **99.9%** reliability.

CHAR.A.I | *FastAPI, RAG, WhatsApp Cloud API, Meta LLM, Pinecone, PostgreSQL* 01/2026 – 02/2026

- Deployed a cloud-native RAG platform on Azure integrating Meta Llama, Pinecone Vector DB, and Sentence Transformers for sub-second semantic search across **5,000+** document chunks.
- Built an event-driven FastAPI backend with WhatsApp Cloud API, PostgreSQL, and Azure Monitor for real-time document assistance, handling **1,000+** queries with **+35%** response relevance.

Skills

Programming Languages: Java, C++, Python, Go, JavaScript, TypeScript

Frameworks & Technologies: Spring Boot, Microservices, REST APIs, Express.js, FastAPI, PostgreSQL

Systems & Concurrency: Distributed Systems, Multi-threading, Concurrency, System Design, Debugging & Profiling

AI Engineering & ML: LLMs, LangChain, VectorDB, TensorFlow, Keras, Pandas, Numpy

Cloud & Devops: Azure, AWS, Docker, Kubernetes, Jenkins & GitHub Actions

CS Fundamentals: Data Structures, Computer Networks, Operating Systems, DBMS, OOPs

Certificates

Microsoft Certified: Azure Developer Associate (AZ-204): Microsoft

Claude Certified Architect: Anthropic

Microsoft Certified: Azure Fundamentals (AZ-900): Microsoft

Oracle Cloud Infrastructure 2025 Foundational Associate: Oracle

CyberOps Associate: CISCO

Competitive Programming

Leetcode (devnarayanan0): Solved **700+** problems, consistently ranked in **Top 8%** globally with max rating **1835+**

CodeChef (devnarayanan0): Achieved **2 STAR** rating with **1400+**, solving DSA problems across rated contests

Achievements

Google Maps Platform Awards 2025, (Winners: 1st in Sustainability) – built **GEOSTORM**, a calamity alert system 09/2025

AWS Emerging Talent Community, Member – active engagement in AWS cloud learning projects

InnovAItion : DAIICT, (Finalist: Fintech) – fintech analytics for anomaly detection 01/2026

Hackwise 2026 : IIM-Indore, Finalist Top (10/2500) Across India 12/2025
